Pronunciation and phonetic symbols
读音和音标

Phonetic symbols are used to show the pronunciation of single word headwords such as **ring** /rɪŋ/. They are also used for any unusual or difficult words that form part of a phrase (= a headword with two or more words) such as **,Ansoff 'matrix** /'ænzɒf; AmE -zɔːf/. For most phrases, the pronunciation is not given but the typical stress of the phrase is marked (see below for **stress in phrases**).
音标用于表示单词词目的读音，如ring /rɪŋ/。它们还被用于构成短语（由两个或多个单词构成的中心词）的任何非常规或难字的发音，如,Ansoff 'matrix /'ænzɒf; AmE -zɔːf/。对于大多数短语来说，并没有读音给出，但是会标出短语的重音（参见下面关于短语重音的描述）。

The symbol (r) indicates that British pronunciation will have /r/ only if a vowel sound follows directly at the beginning of the next word, as in **share offer**; otherwise the /r/ is omitted. For American English, all the /r/ sounds should be pronounced.
符号(r)表示只有当后面紧跟一个以元音开头的词时，英式读音的/r/才发音，如share offer，否则这个/r/就省略不读。在美国英语中，所有的/r/音都应读出。

Stress
重音

A *syllable* is part of a word that has one vowel sound and usually one or more consonants, for example *stock* has one syllable and *economics* has four syllables.

When a syllable is *stressed* (= emphasized when speaking) it appears louder and longer than other syllables and can be noticed by changes in how high or low the voice is. The mark /'/ is placed before the syllable with the strongest stress (= *primary stress*). For example, in the word **moonlight** /'mu:nlaɪt/ the first syllable is stressed while in **expense** /ɪk'spens/ the second syllable is stressed. Longer words with more than two syllables often have a *secondary stress* which is marked /ˌ/. The secondary stress is weaker than the primary stress, for example **integration** /ˌɪntɪ'greɪʃn/.

音节是单词的一部分，包括一个元音和一个或多个辅音，例如，stock有一个音节，而economics有四个音节。当一个音节重读（朗读时强调）时，它比其他音节显得较响，发音较长，可以通过嗓音的高低变化觉察出来。主重音符号/'/放在最强重读音节之前。例如，在单词moonlight /'mu:nlaɪt/中，第一个音节重读，而单词expense /ɪk'spens/的第二个音节重读。有两个以上音节的长单词通常还会有次重音，用/ˌ/表示。次重音比主重音要弱一些，例如integration /ˌɪntɪ'greɪʃn/。

British English and American English
英式英语和美式英语

If there is a difference between British English and American English in the pronunciation of a word, then the British English form is usually given first with *AmE* written before the American pronunciation. For example:

如果一个单词的英式读音和美式读音有差异，则先给出英式读音，在美式读音前用AmE标示。例如：

quarterly /'kwɔ:təli; *AmE* 'kwɔ:rtərli/

If only part of a word is pronounced differently then only the part that is different is shown. Hyphens (-) represent the rest of the word. For example:

如果单词只有部分读音不同，那么，只标示有差异部分的读音。-表示单词的其余部分，例如：

grocery /'grəʊsəri; *AmE* 'groʊ-/

Derivatives
派生词

Derivatives are normally either the same as the headword or are formed by adding a suffix to the headword. They usually have the same pronunciation as the headword, plus the suffix if this is needed. Common suffixes include: *-ly* (/-li/), *-ness* (/-nəs/), etc. The pronunciation is not usually shown and only the stress of the derivative is marked. For example:

派生词通常不是和词目相同，就是在词目后加上后缀。它们通常和词目读音相同，加上可能附加的后缀。后缀通常包括：-ly (/-li/)，-ness (/-nes/)等。通常其读音不加以标注，只标注派生词的重音，例如：

illicit /ɪ'lɪsɪt/ *adjective* 形容词
il'licitly *adverb* 副词

However, if it is not clear how a derivative should be pronounced, then the pronunciation is shown:

然而，如果派生词读音不明显，则会标注读音：

statistic /stə'tɪstɪk/ *noun* 名词
statistical /stə'tɪstɪkl/ *adjective* 形容词

Weak forms and strong forms
弱读式和强读式

Certain very common words, such as **for**, **of** and **to** have a strong and a weak pronunciation depending on whether they are stressed or not. As an example, **for** can be pronounced /fɔ:(r)/ (*stressed*) or /fə(r)/ (*unstressed*). When these words are used in phrases, such as **ˌletter of 'credit** /ˌletər əv 'kredɪt/ or **B-to-B** /ˌbi: tə 'bi:/, they are not usually stressed and so the weak form is used.

某些十分普通的单词，如for、of和to根据它们是否被重读会有强读和弱读两种发音。例如，for可以发/fɔ:(r)/音（重读）或发/fə(r)/音（非重读）。当这些单词用于短语时，如ˌletter of 'credit /ˌletər əv 'kredɪt/或B-to-B /ˌbi: tə 'bi:/，它们通常不重读，因此采用弱读方式。

Stress in phrases
短语重音

A phrase will often have more than one stress. For example in ˌ**standard devi'ation** there are two stresses. When the phrase is said on its own, the stress on **devi'ation** is stronger so this is marked as the primary stress. Many examples with two important words, such as ˌ**systematic 'risk** and ˌ**carbon 'copy**, have a secondary stress followed by a primary stress.
短语通常有一个以上的重音。例如，ˌstandard devi'ation有两个重音。单独读出短语时，devi'ation的重音更强，因此标为主重音。许多由两个重要单词构成的短语，如ˌsystematic 'risk和ˌcarbon 'copy，在主重音之后还跟随一个次重音。

Sometimes the main stress is not on the last word of a phrase. For example, in '**press kit** the main stress is on **press**. Notice that **kit** is unmarked. Secondary stress is only marked *after* the primary stress when there is a word of two syllables or more, for example '**press communiˌcations.**
有时候，主重音不在短语的最后一个单词上。例如，在'press kit中，主重音在press上。注意kit未加标注。只有在有两个或多个音节的单词才会在主重音之后标示次重音，如'press communiˌcations。

The stress patterns we have given on phrases are the recommended ones, but you may occasionally hear others. For example, the stress may change when phrases are combined with other words. The main stress in the first phrase may move to the place of the secondary stress to avoid two stressed syllables being next to each other. For instance, ˌ**duty-'free** has the main stress on **free**, but in the phrase ˌ**duty-free 'shops** the stress on **free** is missing.
短语的重音形式仅供参考，你或许会听到其他的读音。例如，当短语与其他单词连用时，重音可能会改变。第一个短语的主重音可能会移至次重音的位置，以避免连续出现两个重读音节。例如，ˌduty-'free的主重音放在free上，但在短语ˌduty-free 'shops中free便没有重音。

Longer phrases, with more than two important words, are generally shown with several primary stresses. In this case, the last primary stress should always be made the main stress. For example in '**foreign di'rect in'vestment** there are three fairly equal stresses, but the main emphasis in pronunciation should come on **in'vestment.**
有两个以上重要单词的较长短语通常会标出多个主重音。在这种情况下，最后一个主重音应当是主要的重读。例如，在'foreign di'rect in'vestment中，有三个几乎相同的重音，但是主要的重读应当放在in'vestment上。

Preface

This completely new dictionary of Business English has been specially written to be of practical use for students of business and experienced business people who need to read, write and speak English in their work, and for those who give them language training and advice.

It is intended for learners of English at intermediate to advanced level. The definitions have been written using the Oxford 3000™ so that they are simple and clear, but accurate and detailed.

To ensure that the material included in the dictionary is as up-to-date and authentic as possible, a new 50 million word corpus of business English was used. This is a collection of written and spoken British and American English taken from various sources such as the business sections of newspapers, business journals and textbooks, and interviews with business people. It has enabled a wide range of business areas to be covered in the dictionary in addition to terms that are of more general use in communicating in English in a business context.

As people studying English for business need to know how to use words correctly as well as what they mean, detailed grammar information has been included and examples that show how a term is used in typical contexts. In addition, for terms that are commonly used there is extensive information about collocation, for example verbs that can be used with a particular noun.

1000 words in the dictionary are marked with a star to show that they are particularly important in Business English. These are words that are frequent on our business corpus and are essential in most areas of business or combine with many others to make compounds.

During the writing of the dictionary we have been advised by teachers of Business English and by people involved in the world of business. I should like to thank the members of the Said Business School in Oxford who helped us in an advisory capacity on various areas of business, especially Burcu Hacibedel (Banking, Finance and Economics) and Doris Schedlitzki (Management and Human Resources). I am also grateful to the other people who gave us their expert advice, including Tony Ereira (Stock Exchange and Finance), Richard Spraggett (Accounting) and Roberta Wedge (Finance and Management).

I would also like to acknowledge the invaluable work of the large team of people who have been involved in the dictionary at various stages, both before and after the text was complete.

英语原版序言译文

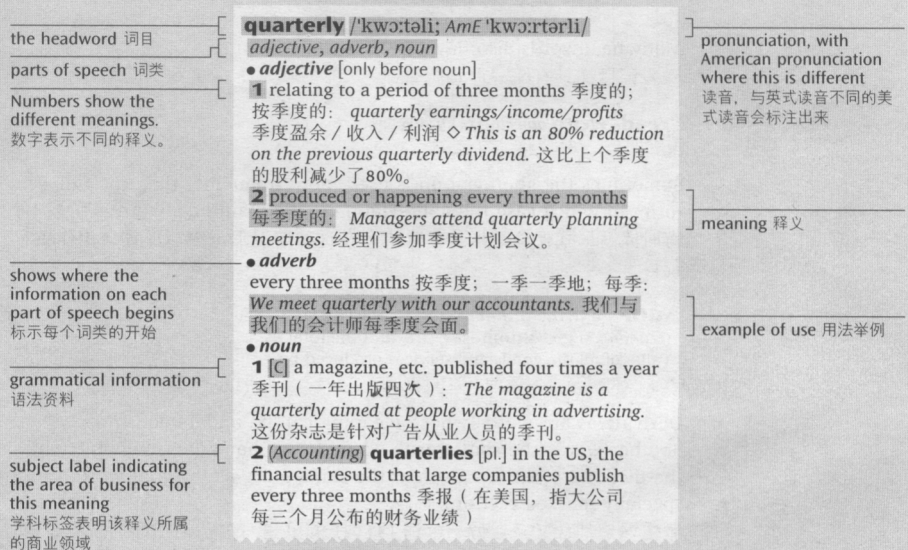
这本全新的商务英语词典是专门为商科学生以及经验丰富的商界人士编写的。本词典对他们在工作中阅读、书写并口头表达英语以及对他们提供语言培训和咨询的人员来说十分实用。

本词典为中级水平的英语学习者而编写。词条的定义采用牛津3000™词汇编写，因此既简单清晰，又准确详细。

为了确保词典所收录的材料尽可能最新、最可靠，使用了一个全新的50万字的商业英语语料库。这个语料库收集了各种来源的书面和口头的英美英语，如报纸的商业版、商业杂志和教科书以及与商界人士的访问。除了在商业环境中用于一般沟通的英语术语外，本词典涵盖了广泛的各个商业领域的用语。

由于商务英语学习者必须知道词汇的含义以及如何正确地使用这些词汇，因此在词典中包含了详细的语法资料，并且提供了在典型的环境下使用术语的范例。此外，对于常用的术语还提供了大量的有关搭配方面的资料，例如提供与特定的名词一起使用的动词。

词典中有1000个单词标上了星号，表示在商务英语中是非常重要的词汇。这些单词在我们的商业英语语料库中的出现频率很高，而且在大多数商业领域十分重要，或与许多其他单词结合构成复合词。



在编写本词典的过程中，我们得到了教授商务英语的教师以及商界人士的帮助。我要感谢牛津赛德商学院的人员以顾问的身份在各个商业领域给予我们的帮助，特别是Burcu Hacibedel（银行、金融和经济学）和Doris Schedlitzki（管理和人力资源）。我也要感谢给我们提供专家意见的其他人员，包括Tony Ereira（交易所和金融）、Richard Spraggett（会计）和Roberta Wedge（财务及管理）。

我还要感谢那些在不同阶段——无论是在稿件完成之前还是之后——参与本词典的大批人员所做的宝贵工作。

Idiomatic language in Business English
商务英语中的习惯用语

As you use this dictionary, you will see many explanations of idioms that are used frequently in Business English. When we use the term 'idiom', people often think of colourful expressions such as *sell like hot cakes* or *bring home the bacon*. However, the English language also includes many thousands of less obviously colourful expressions. We use these expressions every day in speech and writing, often without even noticing them. The language of business is no exception to this. Consider the following examples of Business English:
使用本字典时，你会看到对商务英语中经常使用的许多习惯用语的解释。我们使用习惯用语时常会想到丰富多彩的表达方式，如sell like hot cakes或bring home the bacon。但是，英语也包括成千上万不那么丰富多彩的表达方式。我们每天说话和写作时都会在不知不觉间使用这些表达方式。商务英语也不例外。以下列举商务英语中的例子：

- *Investors are worried about the health of the economy.* 投资者担心经济健康状况。
- *The company is at risk of going under.* 这家公司有倒闭的危险。
- *The dollar has gained ground against the euro.* 美元对欧元比价上升了。

These examples all use idiomatic language. In the first example, the economy is being seen as a human body, which can be healthy or unhealthy. In the second, a company that is failing is seen as a sinking ship, going under the waves. And in the third, it is as though the currencies are in a race, with the euro being ahead but the dollar catching up.
这些例子都使用了习惯用语。在第一个例子中，经济被视为人体，可以是健康的或不健康的。在第二个例子中，面临倒闭的公司被看作是一艘正在下沉的船，快被大浪淹没。在第三个例子中，好比货币正在赛跑，欧元领先，但美元迎头赶上了。

Common themes
常见的主题

If we look at the language people use when speaking and writing about business, we can see that certain themes are repeated over and over again.
如果我们注意人们在商务上使用的语言，就可以看到某些主题会重复出现。

Sport, games and war
体育、游戏和战争

The themes of sport, games and war are some of the most frequent. This is not surprising. Business is all about competition, so it is natural that when people speak and write about businesses competing they should select expressions related to other areas of human activity that involve success and failure, victory and defeat.
体育、游戏和战争的主题最常见，这并不奇怪。商业运作都与竞争有关，因此当人们谈及有关商业竞争时，都会选择人类活动中涉及成败、胜负的表达方式，这是很自然的。

Companies compete with rival companies to be the best and most successful in their field, just as athletes and sportsmen and women compete to win a race or a match. If competition is fierce, rival businesses are even seen as being like opposing countries or armies, where the survival of one seems to require the destruction of another. Businesses and the people in charge of them are often described as players, and business leaders are portrayed as captains or generals, developing strategy, directing operations, attacking the enemy, or encouraging their troops. The themes of war and sport run through the following piece about competition between supermarket companies (some of the idiomatic expressions are explained below):
公司与其对手竞争，从而成为其领域内最好的和最成功的公司，就像运动员为了赢得比赛而相互竞争一样。如果竞争激烈，对手企业甚至被视为你死我活的敌对国家或军队。企业和企业负责人常常被描述为队员，商界领袖被描绘成制定策略、指挥作战、打击敌人或鼓励部队的队长或将军。以下报导有关超市公司之间的竞争正好显示出战争和运动的主题（某些习惯用语解释如下）：

Supermarket giants battle for top place

BRITAIN's two biggest supermarkets are playing for high stakes in their battle to control the nation's shopping trolleys. The food retailing giants have targeted some of their smaller rivals, with one or more hostile takeovers predicted in the coming months. Control of one or more of the smaller regional chains would allow either group to comfortably outstrip their rivals and claim the top spot in British retailing.

超市巨头争夺领导地位

英国两家最大的超市在竞争中准备豪掷千金，试图控制该国的零售行业。食品零售巨头将目标锁定在一些规模较小的竞争对手身上，预计未来数月会发生一起或多起敌意收购。控制一个或多个较小的区域连锁店可使其中一家集团轻松地超越对手，并在英国零售业拔得头筹。

- to **play for high stakes**: to risk a lot of money on being the most successful 为了达到最成功而冒花巨资的风险
- the **nation's shopping trolleys**: the retail industry 零售业
- to **target**: to choose to attack somebody 选择进攻某人
- to **outstrip**: to become faster, better or more successful than a competitor 比竞争对手更快、更好或更成功
- the **top spot**: the first position in a competition 在竞争中位居首位

Vehicles and machines
汽车与机器

Another theme that occurs frequently in Business English is that of businesses being described in terms of vehicles or machines. Again, these seem to be quite natural images. Like many machines, businesses are complicated things made up of many different parts that all have to work well at the same time. They have to move forwards in order to survive, and movement is the defining characteristic of vehicles. Have a look at the following text:

商务英语中另一个经常出现的主题是与汽车和机器有关的说法。同样，使用这些形象似乎十分自然。像许多机器一样，企业是由多种不同的部件组成的复杂事物，这些部件必须同时正常地运转。企业必须向前发展才能生存，这种运动方式就正好是车辆的关键特征。看看以下的文字吧：

Train parts manufacturer back on track

火车部件制造商再步入正轨

Troubled train parts manufacturer Railparts is *back on track*. The company, which makes high-tech components for high-speed trains, has *had a bumpy ride* over the past few years. Already under pressure from foreign competitors, the company *hit the buffers* when a prolonged industrial dispute saw production at its Scottish plant *grind to a halt* late last year. Now, with a new productivity agreement in place and new management *in the driving seat*, the business looks to be *on track* to return to profitability by the third quarter of this year.

陷入困境的火车零部件制造商Railparts已经步入正轨。这家公司主要生产高速列车用的高技术部件，但生意在过去的几年里却屡遭坎坷。在面临外国竞争压力的同时，一场旷日持久的劳资纠纷导致其位于苏格兰的工厂去年底停产，使该公司遭受重创。现在，刚达成了一份新的生产率协议，新的管理层也已整装待发，该企业可望在今年第三季度恢复赢利。

The writer has used several idioms relating to vehicles and machinery to describe the company's problems and recovery. When the company was having problems it was like a train that had left the tracks as the result of an accident; like a car on a bad road it was *having a bumpy ride*. Its activities then suddenly stopped: when a train *hits the buffers*, it hits the barrier at the end of a railway line. Production *ground to a halt* like a machine that stops working or a vehicle that stops moving. Now it has recovered, it is *back on track*. Business leaders are often described in terms of pilots or drivers, directing and controlling the progress of the business, and here the management team is *in the driving seat*, firmly in control.

作者使用了好几个与汽车和机械有关的习语来描述那家公司面临的问题和复苏情况。当

公司出现问题时，就像因事故而脱离轨道的火车，又像在崎岖不平的道路上*颠簸前行*的汽车。其活动会突然停止——当*火车撞到了铁路线末端的障碍物*。生产*停顿*，就像机器停止运转或者车辆停止移动。现在已经复苏，又*步入了正轨*。企业领袖经常被描述为飞行员或司机，引导并控制企业的发展，而管理团队就坐*在驾驶座位上*，牢牢把握方向。

Health
健　康

The theme of health also features strongly in Business English. People will often describe a business, an industry or an economy as if it were a living thing with a state of health. Its condition is seen to improve or worsen in the same way that a person's health does, and it often needs a particular treatment in order to regain its health. The following examples use the theme of health:

健康主题也是商业英语的一个很明显的特征。人们经常把企业、行业或经济比喻为处于某种健康状态的生物。其境况就像人的健康一样可以有所改善或恶化，经常需要进行特定的治疗方能恢复健康。下列例子就是用了健康的主题：

- *We're a **leaner, fitter** business than we were a year ago.* 我公司比一年前更精简、更稳健。
- *She admits that the company is **bleeding** cash on the project.* 她承认公司在这个项目上耗费了大量资金。
- *If banks tighten their lending policies, **healthy** firms may be **starved of** credit.* 如果银行收紧贷款政策，经营有方的企业可能会极度缺乏信贷资金。
- *The risks of the economy **suffering** a **relapse** are high.* 经济出现旧病复发的风险很高。
- *An urgent plan is needed to **revive** the **ailing** manufacturing industry.* 必须制定紧急计划重振境况不佳的制造业。
- *The airline is seeking an **injection of funds** from shareholders.* 这家航空公司正在寻求股东注资。

Incoterms 国际贸易术语

A number of standard conditions of sale have come to be used in International Trade. Perhaps the most popular are the International Commercial Terms or Incoterms, which were decided by the International Chamber of Commerce (ICC). They are used both in writing and negotiating contracts. For example, a seller in Brazil might say that they can sell you an amount of coffee *FOB Santos* for a particular price. As you will see from the table below, this means that for the stated price they will deliver the goods to the port of Santos, load them onto a ship and get permission for them to be exported, but you must pay for the shipping costs and get permission to import them into your country. 国际贸易中采用了许多标准的销售条件。或许最普遍采用的要数由国际商会制定的国际贸易术语。这些术语应用于起草和磋商合同。例如，巴西的一个卖主称可以按某一价格以FOB圣多斯的方式向你出售一定数量的咖啡。从下表可以知道，这即是说，在确定的价格下，他们将把货物发运到圣多斯港，装上船并办妥出口许可手续，但是你必须支付运费并办理进入你们国家的进口许可手续。

The table below gives a summary of the main features of the Incoterms (2000 edition). **Note**: You should contact the ICC for a full description of the Incoterms if you want to use them in a contract. The ICC updates the Incoterms from time to time. 下表列出了国际贸易术语（2000版）的主要特点。注：如果要在合同中使用这些术语，应联系国际商会索取国际贸易术语的全文。国际商会定期更新国际贸易术语。

Writing letters, emails and memos
撰写书信、电子邮件和备忘录

Business **letters** are written in a formal style: you should avoid short forms and informal expressions. A lot of modern business communication takes place by **email**. Emails are generally less formal in style than letters, but emails to customers and suppliers are more formal than emails between colleagues. **Memos** are used for communication within companies and range from formal to informal depending on the subject. Business **faxes** use a similar style to formal letters.
商业信函用正式的风格撰写：应当避免使用简写或非正式的表达方式。在很多情况下，现代商务的沟通都是用电子邮件进行的。一般来说，电子邮件在风格上没有信函那么正式，但是发给客户和供应商的电子邮件要比同事之间的电子邮件正式得多。备忘录用于公司内部的沟通，根据涉及的主题，备忘录有正式和非正式之分。商业传真的风格则与正式信函相似。

❶ Often there is a letterhead printed on the paper, which can appear anywhere at the top of the page. Otherwise, the sender's address and other details (phone number, fax, email address, etc.) usually go on the right-hand side. 通常在信纸上会印有信头，置于页面顶端的任何位置。否则，发信人的地址和其他细节（电话号码、传真、电子邮件地址等）通常放在右侧。

❷ If the letter to which you are replying has a reference, often made up of initials, a date, an account number, etc., this can be included at *Your ref.* Include any reference that you want to be used in the response to your letter at *Our ref.* The references can go either on the right- or left-hand side. 如果你所回复的信件有编号，可以将编号放在你方编号 (Your ref.) 中，这些编号通常由首字母、日期、客户编号等构成。在我方编号 (Our ref.) 中注明期望对方回函时使用的编号。这些编号可以置于右侧，也可以置于左侧。

❸ The date can also go on the right or the left. British style is to put the day, then the month, then the year. American style is to have the month before the day (*June 26, 2005* or *6-26-2005*). In order to avoid confusion, it is best to write the month out in full rather than use figures. 日期也可以置于右侧或左侧。英式是按日、月、年的顺序书写。美式则将月份置于日期之前（June 26, 2005 或 6-26-2005）。为了避免被混淆，写月份时最好用全称，而不是用数字。

❹ The address of the person receiving the letter goes on the left of the page. If you know their name and job title, put them before the address. Alternatively, you can put the name or job title on a new line after the address and use the expression *for the attention of* (often shortened to *fao*): *For the attention of the Marketing Director* 收信人地址放在页面的左侧。如果知道对方的名字和职衔，可以把名字和职衔写在地址之前。还可以把名字和职衔另起一行放在地址之后，用短语 for the attention of（常缩写为 fao）开头：For the attention of the Marketing Director。

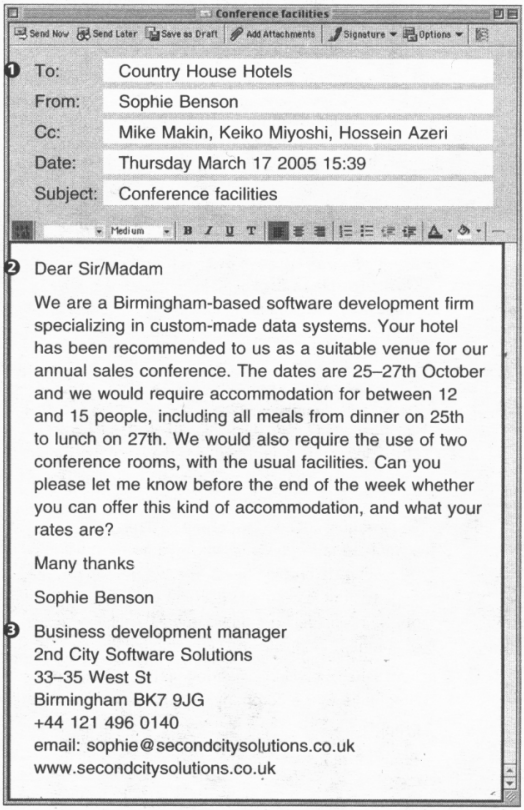
❺ There are various ways of starting a letter. If you know the name of the person you are writing to, start with *Dear Mr/Mrs/Ms/Dr…* and the person's surname. If you do not have the name of a specific person, you can address the letter: *Dear Sir/Madam*, *Dear Sir or Madam* (in British English) or *To whom it may concern* (in American English). *Dear Sirs* is used, especially in British English, when addressing a company rather than a particular person. In American English, a letter to a company usually

starts with *Gentlemen*. In British English, you can choose whether to put a comma after the name (*Dear Ms Wedgwood*, or *Dear Ms Wedgwood*). In American English, it is usual to put a colon (*Dear Mr Smith:*). 信函开头的方式很多。如果你知道收信人的姓名，可以用 Dear Mr/Mrs/Ms/Dr……以及收信人的姓开头。如果你不知道对方的姓名，可以用以下方式称呼对方：Dear Sir/Madam、Dear Sir 或 Madam（英式英语）或 To whom it may concern（美式英语）。Dear Sirs 尤其用于英式英语，指信函是发给某公司而非个人。在美式英语中，发给公司的信件通常以 Gentlemen 开头。在英式英语中，在名字后面可以放逗号，也可以不放（Dear Ms Wedgwood, 或 Dear Ms Wedgwood）。在美式英语中，通常放冒号 (Dear Mr Smith:)。

❻ You can mention the subject of your letter in a title. It is not necessary to begin the title with *Re* (short for 'concerning') 可以在标题中注明信函的主题，但不必以 Re（concerning 的缩写）开头。

❼ Avoid using short forms: use *I am* rather than *I'm*. 避免使用简写形式：用 I am 而不是 I'm。

❽ It is usual to separate paragraphs with a line space. 通常用空行分隔段落。



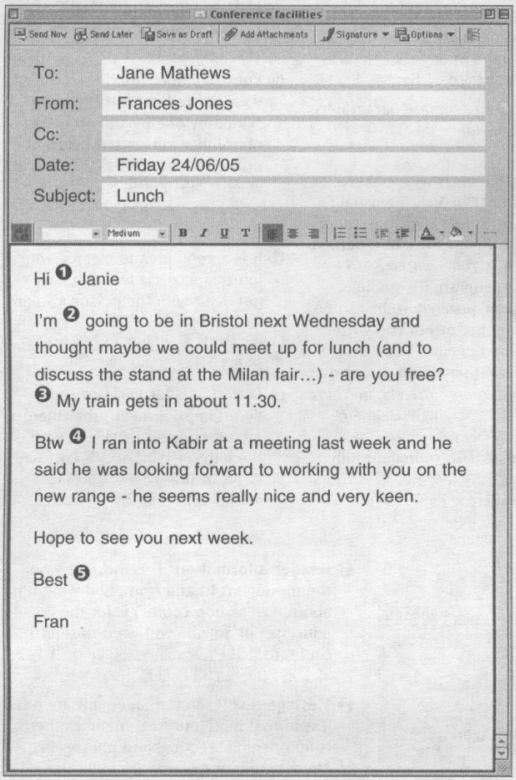
❾ If the letter starts with *Dear Sir/Madam* or *Dear Sirs*, the usual ending in British English is *Yours faithfully*. If you write to a named person it is *Yours sincerely*. In American English, the endings *Sincerely* or *Sincerely yours* can be used, whether or not you write to a named person. You can choose whether to put a comma after this (*Yours sincerely*, or *Yours sincerely*). 如果信函以 Dear Sir/Madam 或 Dear Sirs 开头，通常英式英语的结尾是 Yours faithfully。如果给指定的人写信，则用 Yours sincerely 结尾。在美式英语中，不管是否给指定的人写信都可以使用 Sincerely 或 Sincerely yours 结尾。结尾之后可以使用逗号，也可以不用（Yours sincerely, 或 Yours sincerely）。

❿ Your signature is followed by your printed name. If the letter is signed by one person on behalf of another, *pp* is used before the printed name. 在印刷体名字之后签名。如果信函由一人代表另一个人签署，则在印刷体名字前加上 pp。

⓫ It is a good idea to include your job title, especially if you have not dealt with the person you are writing to before. 最好加上你的职衔，尤其是当收信人是那些以前没有打过交道的人。

⓬ *Encl.* stands for *Enclosed or Enclosure(s)*: it means that there are other documents sent with the letter. 附件 (Encl.) 是 Enclosed 或 Enclosure(s) 的缩写：指与信函同时发送的其他文件。

Formal emails 正式电子邮件



❶ **Header information**: This includes who the message is to and from, and what it is about. Cc ('carbon copies') is for the email addresses of anyone you want to send copies to. 标题信息：包括收件人、发件人和主题。Cc 代表邮件抄送人的地址。

❷ **Message text**: Even formal emails are often less formal than letters. Sometimes there is no opening greeting, and phrases like *Many thanks* or *Regards* are often used instead of the more formal *Yours faithfully* or *Yours sincerely*, especially after the initial exchange of emails.
Although a more informal tone may be appropriate, particularly when writing to someone you deal with regularly, you should still use correct spelling, grammar and punctuation. Avoid using whole words in capitals (URGENT), which may be interpreted as shouting. If you want to stress a word you can use asterisks on either side of it: *urgent*.
正文：即使正式的电子邮件也没有信函那么正式。有时候根本没有开始时的寒暄部份。经常用 Many thanks 或 Regards 来替代更为正式的 Yours faithfully 或 Yours sincerely，尤其在初次电子邮件来往之后。尽管给经常打交道的人发电邮时，采用非正式的语气更为恰当，还是应该确保使用正确的拼写、语法和标点符号。避免整个单词大写 (URGENT)，这可能会给人理解成叫嚷。如果想强调某个词，可以在词的两侧用星号 * 表示：*urgent*。

❸ **Signature**: this often includes the name and address of the sender's company, their phone/fax number, email address and the company's website. 签署：通常包括发件人的名字和发件人公司的名称、电话号码、传真号码、电子邮件地址以及公司网址。

Informal emails 非正式电子邮件

❶ You can start an email with *Hi* or *Hello* (with or without the person's name) or just with their first name: *Janie*. People often start with no greeting at all, especially if they have emailed each other recently and are continuing the same topic. 可以用 Hi 或 Hello（加上或不加人名）或干脆用他们的名字作为电子邮件的开头：Janie。人们常常在邮件开头都没有加上问候部份，尤其是双方在最近有电子邮件往来并将继续就同一话题进行交流时。

❷ In an email to someone you know well it is appropriate to use informal language and a tone similar to that of conversation. Short forms are acceptable (*I'm* instead of *I am*). 给自己熟悉的人发电子邮件时，可以使用非正式的语言，语气可以和交谈相似。也接受简写（I'm 而不是 I am）。

❸ Informal emails can be fairly free in their punctuation, although it still advisable to write full sentences with initial capital letters and full stops. An email without basic punctuation may be seen as rushed or unprofessional. 虽然非正式电子邮件中使用标点符号方面可以十分自由，但仍依然建议把句子写全，首单词的首字母大写，最后加句号。没有基本标点符号的电子邮件可能会被看成是草率或不专业。

❹ Abbreviations such as **btw** (*by the way*), **fyi** (*for your information*) are commonly used. 诸如 btw (by the way)、fyi (for your information) 等的缩写很常用。

❺ *Best* is short for *Best wishes*. Other possible ways to end are *Regards*, *All the best*, or *Yours* (slightly more formal). *Best 是 Best wishes 的简写。其他结束邮件的方式有：Regards、All the best 或 Yours（稍微更正式一些）。
