will¹ /wɪl/ modal verb ★★★

Will is usually followed by an infinitive without 'to'. will 通常后接不带 to 的不定式: *She will be angry.* 她会生气的。Sometimes it is used without a following infinitive. 有时后面不接不定式: *I never have borrowed money, and I never will.* 我从未借过钱,而且永远也不会去借。

In conversation or informal writing **will** is often shortened to **'ll**. 在会话或非正式书面语中,will 常缩略为 'll: *Do you think it'll rain?* 你认为会下雨吗?

Will does not change its form, so the third person singular form does not end in '-s'. will 没有形式变化,因此主语为第三人称单数时,其后也不加-s: *Robert will be there.* 罗伯特会在那儿。

Questions and negatives are formed without 'do'. 构成疑问句和否定句时不用 do: *Will you help me?* 你帮我一下好吗? ◆ *They will not accept our offer.* 他们不会接受我们的报价。

The negative form **will not** is often shortened to **won't**

W

in conversation or informal writing. 在会话或非正式书面语中否定式 will not 经常缩略为won't: *Don't worry – the dog won't bite you.* 别担心,狗不会咬你的。

Will is often used in question tags. will 常用于附加疑问句中: *You won't tell Dad, will you?* 你不会告诉爸爸的,对吗?

Will has no participles and no infinitive form. It is used for forming the future tense of other verbs, but does not have a future tense of its own. will 没有分词和不定式形式,用于构成其他动词的将来时态,但本身没有将来时形式。

Would can sometimes be used as the past tense of **will**, for example, in indirect speech introduced by a verb in the past tense. would 有时可以用作 will 的过去式,如在动词过去式引导的间接引语中: *He promised that he would return.* 他答应要回来的。

Will have forms the future perfect tense, which is used for describing actions that are expected to be completed before a time in the future. will have 构成将来完成时态,用于描述在将来某个时间之前预计会完成的动作: *By the end of the course, you will have learned all the basic skills.* 在学完这一课程之后,你们会掌握所有的基本技能。

would /wʊd/ modal verb ★★★

Would is usually followed by an infinitive without 'to'. would 通常后接不带 to 的不定式: *A picnic would be nice.* 去野餐挺不错的。Sometimes it is used without a following infinitive. 有时后面不接不定式: *They didn't do as much as they said they would.* 他们做的没有他们说的那么多。

In conversation and informal writing, **would** is often

shortened to **'d**. 在谈话和非正式书面语中，would 常简写为 'd：*I thought you'd like a drink before dinner.* 我原以为你吃饭前要喝点酒。

Would *does not change its form, so the third person* singular form does not end in '-s'. would 没有词形变化，第三人称单数后面不加 -s：*As a child, she would often run away from home.* 小时候她就常常离家出走。

Questions and negatives are formed without 'do'. 构成疑问句和否定句时不加 do：*Would you like a cup of coffee?* 你想喝杯咖啡吗？◆ *He would not tell us his secret.* 他不想告诉我们他的秘密。

The negative form **would not** is often shortened in conversation or informal writing to **wouldn't**. 在谈话或非正式书面语中否定形式 would not 常常简写为wouldn't：*I wouldn't want to have your job.* 我不想干你的工作。

Would is often used in question tags. would 常用于附加疑问语中：*You wouldn't lie to me, would you?* 你不会对我撒谎，是不是？

Would has no tenses, no participles, and no infinitive form. There is no past tense, but **would have** followed by a past participle can be used for talking about actions that did not happen. would 没有时态、分词和不定式形式。虽然没有过去时态，但是 would have 可后接过去分词，用于谈论没有发生的动作：*She would have bought the house if she had been able to afford it* (=she did not buy it). 如果她能支付得起，她就买下那栋房子了。

In some cases **would** can be used as the past tense of will, for example in indirect speech introduced by a verb in the past tense. 在某些情况下，would 可以用作 will 的过去式，如在由过去时态的动词引导的间接引语中：*I promised that I would visit her the next day.* 我答应第二天去拜访她。

GEOGRAPHICAL NAMES AND NATIONALITIES 地理名称和民族

The following lists show you the names and pronunciations of countries and regions and the adjectives that are related to them. Most adjectives can be used as nouns to describe a person from a particular place or regions(e. g. a **Belgian** is a person from **Belgium**). Where the adjective cannot be used as a noun, it is followed by an asterisk (*) and the correct term is given in the Nationalities table at the end. 下表列出了国家与地区的名称及其发音以及相应的形容词形式。其中大多数形容词都可用作名词来表示来自该国家或地区的人(如:Belgian 是来自 Belgium 的人)。而不能用作名词的形容词都在其后用星号(*)标出,并在后面的"民族"一表中给出了其正确的名词形式。

Countries and Regions 国家和地区

DEFINING VOCABULARY 释义词汇

All the definitions in this dictionary are written using a carefully chosen list of under 2,500 words. This is the 'defining vocabulary'. 本词典里所有的释义都是用包含不到2,500个单词的精选词汇表编写的,即为"释义词汇"。

How were the words in the defining vocabulary chosen? 释义词汇里的单词是如何选择的呢?

These are the most common and basic words in English. We have chosen them by examining word-frequency information from hundreds of millions of words of English, including the English used in books written for advanced learners. 这些词汇是英语中最常见、最基本的单词。我们是通过调查数亿个英语单词(包括为高级学习者编写的书籍里的英语单词)的词频信息而选定的。

Which forms of these words are used in the definitions? 释义中使用这些单词的哪些形式?

All the normal forms of nouns, verbs, and adjectives: for example, the list includes *enter* and *large*, so definitions may include forms like *entered* or *entering* and *larger* or *largest*. Apart from this, all the words and forms we use are actually shown in the defining vocabulary list: there are no prefixes or suffixes that can make additional words. 使用名词、动词和形容词的所有标准形式:例如,单词表包括 enter 和 large,因此释义可能包括像 entered 或entering 和 larger 或 largest 这样的形式。除此之外,我们使用的所有单词和形式确实在词汇表里出现:其中没有能构成新词的前缀和后缀。

Which meanings of these words are used in the definitions? 释义使用这些单词的哪些词义?

Only the most basic and central meanings: for example, the adjective *cold* can sometimes mean 'unfriendly', but in our definitions it only refers to something at a low temperature. 只使用最基本和最核心的词义:例如,形容词 cold 有时意为"不友好",但在我们的释义里它只指低温的东西。

Are phrases and phrasal verbs used as part of the defining vocabulary? 短语和短语动词用作释义词汇的一部分吗?

We use only the ones listed here: for example, the list includes a few simple phrasal verbs like *put on* and *take off* (for talking about clothes), and a few simple phrases like *in exchange for*, *in order to*, and *pay attention to*. If any phrase or phrasal verb is not listed, we do not use it. 我们只使用这里列出的短语和短语动词:例如,词汇表包括像 put on 和 take off (用于谈论衣服)等若干简单的短语动词,以及像 in exchange of, in order to 和 pay attention to 等若干简单短语。未列出的短语或短语动词,我们均不会使用。

Do definitions ever include other words? 释义包括其他单词吗?

Definitions sometimes need to refer to words outside the defining vocabulary. This is rare, but when it happens the word is shown in SMALL CAPITAL LETTERS. Sometimes, too, we refer to the names of real people or places (for example 'William Shakespeare' or 'England'). 'Proper nouns' like this are not listed in the defining vocabulary. 释义有时需要涉及释义词汇外的单词。这种情况很少,但如果出现,这个词就用小号的大写字母标示。有时我们也涉及真实的人或地方(如 William Shakespeare 或 England)。类似这样的"专有名词"就没有收入释义词汇之中。

LABELS 标记

Style and attitude labels 文体和态度标记

formal 【正式】 not used in ordinary conversation or in normal everyday writing 表示不用于普通会话或日常写作中：*aegis*, *remonstrate*

humorous 【幽默】 used in an ironic and often friendly way 表示友好的嘲讽意味：*ill-gotten gains*, *better half*

impolite 【无礼】 likely to offend some people 表示可能会冒犯某些人

informal 【非正式】 more common in speech than in writing and not used in formal situations 表示在口语中较为常用，且不用于正式场合：*guy*, *bloke*, *go broke*

literary 【文】 old but still used in some kinds of creative writing 表示虽然过时但仍用于某些创造性的写作中：*behold*, *jocose*, *perfidious*

offensive 【冒犯】 extremely rude and likely to cause offence 表示极为粗鲁并很可能导致冒犯

old-fashioned 【过时】 no longer in current use but still used by some older people 表示已经过时，但仍被一些年长者使用：*wireless*

spoken 【口】 used in speech rather than writing 表示用于口语：*believe it or not*, *after you*, *I bet*

very formal 【非常正式】 not very common. People who use very formal words often seem to be trying to be more intelligent and important than they really are. 表示不很常用。使用非常正式单词的人经常似乎想让自己显得更聪明或更重要：*ameliorate*, *amity* ***very informal*** 【非常不正式】 used only in very informal situations and mainly among people who know each other well. Some dictionaries use the label 'slang'. 表示仅在非常不正式的场合且主要为熟人之间使用。有些词典使用"俚语"这一标记：*go ape*, *journo*

Subject label 学科标记

These labels show that a word is used as part of the language of a particular subject and is not used in normal everyday English. 这些标记表示一个单词是某学科的专业术语，并不用于一般的日常英语：

business 【商】
computing 【计】
journalism 【新闻】
legal 【法律】
linguistics 【语言】
medical 【医】
science 【科】
technical 【术语】

Regional labels 地域标记

Br E 【英】 used in British English but not in American English 表示用于英国英语而非美国英语

Am E 【美】 used in American English but not in British English 表示用于美国英语而非英国英语

mainly Am E 【主美】 more common in American English but also used in British English 表示在美国英语中更为常用，但也用于英国英语

Other types of English that have labels in the dictionary are 本词典标记的其他英语种类有：

Australian 【澳】
Canadian 【加】
Caribbean 【加勒比】
East African 【东非】
Indian 【印】
Irish 【爱尔兰】
New Zealand 【新西兰】
Scottish 【苏格兰】
South African 【南非】
Welsh 【威尔士】
West African 【西非】

PRONUNCIATION GUIDE 发音指南

This dictionary uses the following symbols based on the International Phonetic Alphabet. 本词典使用了国际音标中的下列符号：

Consonants 辅音

p	**press**	ʒ	measure
b	**bag**	h	**hot**
t	**time**	x	**loch**
d	card	tʃ	**chair**
k	**can**	dʒ	**jam**
g	dog	m	**more**
f	staff	n	**snow**
v	**vote**	ŋ	sing
θ	**thin**	w	**water**
ð	**that**	r	**ring**
s	**sit**	l	small

Stress 重读

The main stressed syllable in an entry is shown by the symbol /ˈ/, and the second-most important stressed syllable is shown by the symbol /ˌ/. Stress marks are shown before the stressed syllable. 条目里的重读音节用符号/ˈ/表示，次重读音节用符号/ˌ/表示。重音符号位于重读音节之前：**correspond** /ˌkɒrɪˈspɒnd/. Compound entries that are made up of two or more separate words have stress marks on them when the pronunciation for each individual word is already given in the dictionary. 如果构成复合条目的每个单词的音标已经在词典中标出，则只在该复合条目上标出其重音位置：**ˌice ˈcream**。

Alternative pronunciations 两种发音

The dictionary shows alternative pronunciations for entries only when the second pronunciation is so different from the main one that it might not be understood easily. 只有在条目的第二种发音和其主要发音差别很大、不易理解的情况下，本词典才标出该条目的两种发音：**cervical** /ˈsɜːvɪkl, səˈvaɪkl/。*American* pronunciations are shown only when they are so different from the British pronunciation that they might not be understood correctly. 只有在条目的美语发音和英语发音差别很大、不易理解的情况下，本词典才标出该条目的美语发音：**laboratory** /ləˈbɒrət(ə)ri, *Am E* 【美】ˈlæbrəˌtɔːri/。

Weak forms and strong forms 弱读和强读

Some function words (common words like prepositions and pronouns) have more than one pronunciation. The weak form is used when the syllable is unstressed, and the strong form is used when the syllable is stressed. These two forms are shown like this. 有些功能词(像介词和代词这样的常用词)有两种或多种发音。不重读时用弱音；重读时用强音。强读弱读在本词典中以下列形式标出：**and** /*weak* 弱读 ən, ənd, *strong* 强读 ænd/。

Syllabic consonants 成音节辅音

Syllabic consonants are consonants such as /l/ and /n/ that can form a syllable without a vowel. 成音节辅音即指如 /l/ 和 /n/ 之类的辅音，它们不需要元音便可构成一个音节：**middle** /ˈmɪdl/ and 和 **written** /ˈrɪtn/。

The symbol /ə/ 符号 /ə/

In some words, the sound /ə/ (known as a *schwa*) is pronounced by some speakers and not by others. Both pronunciations are correct and this is indicated by showing the schwa in brackets. 有些人会发出一些单词中的 /ə/ 音(即非重读央元音)，但有些人则不会。两种发音均正确。这种情况用括号里的非重读央元音来表示：**mystery** /ˈmɪst(ə)ri/。

Nasalized vowels 鼻元音

Some French words that have entered the English language contain a nasalized vowel sound that is common in French but rare in English. These vowels are shown with the symbol /˜/ above them, for example **denouement** /deɪˈnuːmɒ̃/. 一些已进入英语的法语单词包含一个鼻元音，它们在法语中很普遍，但在英语中则很少见。这些元音用符号/˜/标于其上，例如 **denouement** /deɪˈnuːmɒ̃/。
