避免产生冒犯的词:disabled

Use **disabled** to describe someone who has a permanent condition, especially a physical one, that limits their activities in some way – for example, a disability that makes someone unable to walk. The older word **handicapped**, which referred to both physical and mental disabilities, is now usually considered offensive. You can use **blind** or **deaf** to refer to someone who cannot see or cannot hear, but many people now prefer the expressions **visually impaired** and **hearing impaired**. Some people use the word **challenged** (in compounds like **physically challenged** or **visually challenged**) to describe disabilities in a more positive way. But this is more often used in humorous phrases such as **vertically challenged** (= not tall). disabled 用来形容患有终身残疾,特别是身体上残疾的人。这种残疾在某些方面限制人的活动,如使人无法走路的残疾。过时一点的词 handicapped 指身体和精神上的残疾,现在通常被认为带有冒犯意味。可使用 blind 或 deaf 来指看不见或听不见的人,但许多人现在更愿意用 visually impaired 和 hearing impaired 来表达。有些人(在 physically challenged 或 visually challenged 等复合词中)使用 challenged 来友善地描述各种残疾。但这更通常是用在 vertically challenged (个子不高的)等幽默的短语中。
